Objective

Aspiring software developer with a Computer Science degree seeking an internship opportunity to apply programming, problem-solving, and analytical skills in a professional environment. Eager to learn from experienced developers, gain practical industry experience, and contribute to the development of efficient, reliable, and high-quality software solutions while continuously improving technical and collaborative abilities.

Experience

- University of KwaZulu Natal** 25 August 2023 - 25 November 2023
Tutor
Employed in a three months contract to tutor first year students in the module of Foundations of Computer Science (COMP 107). Assisted the lecturer in marking practicals and helped students understand the module concepts better.
- University of KwaZulu Natal** 25 March 2024 - 25 May 2024
Tutor
Employed in a three months contract to tutor first year students in the module of Introduction to Computer programming (COMP 100). Assisted students to understand the module concepts better and provide continuous support. Acted as an invigilator during tests and practicals and also assisted the lecturer in the marking of practicals.
- University of KwaZulu Natal** 25 August 2024 - 25 November 2024
Tutor
Employed in a three months contract to tutor second year students in the module of Computer Organization and Architecture (COMP 204). Assisted students to understand the module concepts better and provide continuous support. Acted as an invigilator during tests and practicals and also assisted the lecturer in the marking of practicals.
- University of KwaZulu Natal** 25 August 2025 - 25 November 2025
Tutor
Employed in a three months contract to tutor second year students in the module of Data Structures (COMP 201). Assisted students to understand the module concepts better and provide continuous support. Acted as an invigilator during tests and practicals and also assisted the lecturer in the marking of practicals.

Education

- Mbopha High School** 2021
National Senior Certificate
- University of KwaZulu Natal** 2025
BSc Computer Science and Information Technology.

Skills

- Computer Literacy
- Problem solving skills
- Ability to work under pressure
- Good Communication skills
- Hard working and Team work
- Good organizational skills

Technical Skills

- Programming : C++, C#, Java, Python, SQL.
- Software Development : Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC),

Debugging and Code Optimization, Application Development.

- Database Technologies : MySQL, Database Design, SQL Queries and Data Manipulation, Relational Database Management Systems (RDBMS).
- Web & Development Tools : Git / Version Control, Visual Studio Code, NetBeans / IntelliJ, Basic HTML & CSS.
- Computer Science Fundamentals :Data Structures and Algorithms, Problem Solving, System Design Concepts.
- Other Technical Skills :API Integration (Basic), Testing and Debugging, Software Documentation, Basic Cloud Concepts.

Projects

- **Story Driven Quizz Game C++**

Group Project | C++ Game Development (SFML)

Designed and developed a story-driven quiz game using C++ and the SFML graphics library. The game features three progressive levels with increasing difficulty, combining narrative elements, logic-based questions, and interactive gameplay. Contributed to leadership, teamwork, question bank complexity, questions branching map system. Led system planning and UML design to ensure modular, scalable architecture.

Tools & Technologies: C++, SFML, Visual Studio 2022.

- **3D Game Development Unity(C#)**

Game Development Project(Vengeance)

Group Project | University Project | University Project | Unity 3D Shooting & Combat Game (Team Lead)

Led a team in the successful development of a third-person 3D shooting game using Unity. Designed gameplay featuring a player character, enemy guards, and a mafia boss. Oversaw visual direction and contributed to 3D modeling, texture and UV mapping, lighting, materials, and basic animations using Blender.

Tools & Technologies: Unity Engine, Blender

Achievements & Awards

- Bachelor of Science in Computer Science: Completed in December 2025 UKZN
- UKZN Distinctions: Math235, Math140.
- Bachelor's pass: Matriculated with multiple Distinctions.

Languages

- English
- IsiZulu
